Bachmann's Exclusive *E-Z Command® Smart Interface*
Wi-Fi Train Control Through Your Android™ or Apple® Smart Device

Now you can use your smart device to remotely control features of the *E-Z Command®* Control Center and operate multiple trains on your layout. Simply download the *Smart Interface* app, plug the *Smart Interface* into your *E-Z Command®* Control Center, and connect to the *Smart Interface's* Wi-Fi signal. You are now ready to operate your trains using the locomotive addresses already assigned on your *E-Z Command®* Control Center. The *Smart Interface* lets you control the speed, direction, lighting, and first four primary functions of up to nine DCC locomotives and one analog (DC) locomotive. Enjoy the freedom of Wi-Fi train control with *E-Z Command® Smart Interface!*
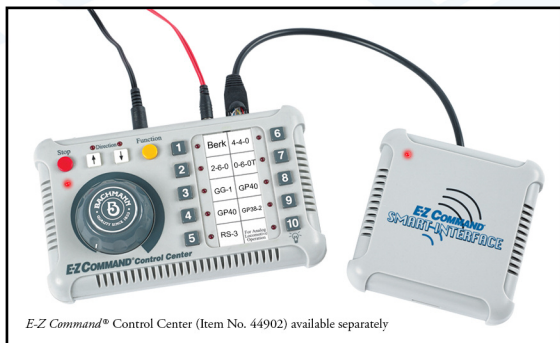

E-Z Command® Smart Interface features include:

- plug-and-play Wi-Fi network; no additional router or wireless capabilities needed
- connects directly to your *E-Z Command®* Control Center (Item No. 44902)
- simultaneously control speed, direction, lighting, and the first four primary functions of up to ten locomotives through your Wi-Fi connected Android™ or Apple® smart device
- access to all locomotive addresses on your *E-Z Command®* Control Center
- compatible with any locomotive that can be operated with your *E-Z Command®* Control Center
- wireless *E-Z Command®* Control by multiple users through their Android™ or Apple® smart devices
- patent pending
